

## PHYSICS MADE FOR STUDENTS WITH SPECIAL EDUCATIONAL NEEDS USING AUGMENTED REALITY

The project AR Physics made for students with special educational needs or Arphymedes Plus is aimed at making the subject of Physics accessible to all students. Using of augmented reality (AR) provides the students with authentic, immersive, and interactive experience also in the area such as Physics is.

**We would like to invite you to the Final Project Conference,  
held on 25-26 September 2023 in Trnava, Slovakia**

The Arphymedes Plus Project brought together the experts from four countries and six institutions who prepared together the **online book for students with special educational needs, the augmented reality modules**, together with the **project web site**. We have been also preparing Open **online course** for training the teachers (in English language). During the final project conference, we would like to present you with individual tools for teaching Physics at basic schools.

**The participation at the conference is free of charge, and you can participate:**
